

CHEMZ *Circuit Reviver*

Part No. 7174 (400ml / 285g)

European style formulation

Oil based powerful contact cleaner for dissolving oxide and sulphide layers from electrical contacts & metallic surfaces

- Removes carbon deposits
- Safe for use on PCB's
- Excellent cleaner after flash over
- Cleanser & lubrication for multi-plugs
- Special inhibitors to ensure long lasting lubrication & corrosion protection

Chemz Circuit Reviver is an oil based cleaner for use on contacts of all types

Chemz Circuit Reviver effectively removes carbon, sulphide and oxide layers from all metallic contact surfaces

Chemz Circuit Reviver is formulated with inhibitors which give long term protection and lubrication

Chemz Circuit Reviver can be used on switches, contacts, sliding contacts, contact banks, relays, PC boards, telecommunications, data processing equipment and multi plugs

Chemz Circuit Reviver is ideal for cleaning and maintaining metallic surfaces after carbon flashover contamination

Chemz Circuit Reviver is particularly suitable for use in the auto electrical and marine industry

Technical Data

Appearance	Clear red liquid spray
Vapour Density, (Air = 1)	>1
Flashpoint, °C	<0 (Hydrocarbon propellant)
Propellant	Hydrocarbon

MPI Approved C12 (All animal products except dairy)
