

CHEMZ MX3 Chain Lube

Part No. 7652/7655 (250ml/500ml)

- Adhesive lubricant for chains, sprockets and pins.
- For off road and on road use
- Foaming non fling technology
- Safe for use on all types of O' Rings

Chemz MX3 Chain Lube is formulated for use on all motorcycle chains

Chemz MX3 Chain Lube penetrates inner pins, rollers and bushings and after propellant evaporates, thickens to a long-lasting lubricant.

Chemz MX3 Chain Lube contains additives which reduces noise, wear and friction and helps increase chain life.

Chemz MX3 Chain Lube is and adhesive lubricant which resists high speed fling-off.

Chemz MX3 Chain Lube has a wide temperature range -30°C to +180°C and is resistant to hot, cold and salt water.

Chemz MX3 Chain Lube is suitable for use on O'Rings.

Technical Data

Colour	Light amber
Odour	Characteristic, mild
Density	0.880 g/cm
Viscosity (oil)	150 mm ² /s (40°C)
Pour Point	- 12°C
Behaviour	Adhesive film
Temperature Range	-30°C to +180°C
Water Solubility	Negligible at 20°C
Flashpoint (Propellant)	< 0 °C
Flashpoint (Residual Film)	< 100 °C
Propellant	Hydrocarbon
