ABOUT US

MESSAGE FROM CHEMZ FOUNDER, JOHN BERRY

“

...The twin principles of quality and innovation sums up what Chemz is all about. When I started Chemz over 25 years ago, all the well known brands were foreign owned and I was keen to set up a NZ company, with NZ formulated products aimed at the NZ market to suit our climatic conditions and unique location.

I'm proud to say, 25 years later, Chemz has exceeded all my expectations. We have a growing and loyal customer base who see the value in partnering with a Kiwi owned and operated company, based right here in Hawke's Bay. I'm really excited about what the future holds for Chemz - watch this space! ...

”

AND OUR CHEMZ AMBASSADOR

“

...I'm proud to be an ambassador for Chemz.

They are great products, locally made and really stand up in the market. They do what they say they do and then some.

Whether you're a weekend warrior, a large business or a tradie, Chemz has you covered for quality and Kiwi innovation...

Greg Murphy

NZ professional racing driver, four-time winner of Bathurst 1000, Hawke's Bay legend and all round good guy

”

NO.8 MULTILUBE

MULTILUBE FAVOURITE WITH HUNDREDS OF USES

- Versatile, must-have super lubricator, rapid penetrator, squeak stopper, metal protector and moisture displacer
- Use it everywhere, at the factory, onsite, on the farm, at home and on the bike, boat or campervan
- Leaves a protective film
- Available in a range of sizes

7384 / 400ml
7388 / 5L
7389 / 20L

MPI C12

PENETRENE

LUBRICATES, PENETRATES & DRIVES OUT MOISTURE

- Can be used on all mechanical and industrial equipment
- Forms an invisible film, protecting equipment and preventing corrosion
- Safe on plastics, rubber and paint
- Available in a range of sizes

7304 / 400ml
7308 / 5L
7309 / 20L

MPI C12

RAPID BRAKE CLEANER

NEW GENERATION ALCOHOL BASED FORMULA

- CFC free and non-chlorinated
- Quickly removes brake fluids, grease and oil from brake linings, pads, drums, clutches and CV joints
- Powerful jet action spray nozzle
- Fast drying
- Convenient bulk size available

7856 / 600ml
7857 / 750ml
7859 / 20L
7850 / 200L

MPI C12

Z7 BRAKECLEAN

BRAKE, CLUTCH & INDUSTRIAL PARTS CLEANER

- Effective heavy-duty cleaner for industrial parts to remove oil and grease
- Ideal for pre-assembly cleaning
- Non-staining, non-corrosive and residue free with fast evaporation
- Not for use on rubber, plastics or painted surfaces
- Available in a range of sizes

7816 / 600ml
7818 / 5L
7819 / 20L

MPI C12

OIL & GREASE EATER

BIODEGRADABLE FOAMING WATER-BASED CLEANER & DEGREASER

- Non-toxic and non-acidic
- Petroleum solvent free
- Formulated to degrease engines, machinery, heavy equipment and automotive parts
- Excellent for removing grease and oil from workshop floors and driveways

7885 / 500ml
7888 / 5L
7889 / 20L
7880 / 200L
7881 / 1000L

MPI C12

ZAP

SPRAY ON HOSE OFF DEGREASER

- Specially formulated as an easy to use water soluble degreaser
- Removes oil and grease from car, truck, boat, tractor and lawnmower engines
- Ideal for removing oil and grease from concrete floors and surfaces

7866 / 600ml
7868 / 5L
7869 / 20L

MPI C12

AUTOMOTIVE

350 SILICONE

CLEAR MULTIPURPOSE LUBRICANT & PROTECTANT

- Lubricates, reduces friction, waterproofs and protects
- Doesn't mark or stain and can be used on all types of surfaces
- Wide temperature range -50° to 250°
- Excellent mould release
- High quality lubricant for sliding doors and aluminium hinges

7836 / 600ml

7838 / 5L

7839 / 20L

MPI C12

EZY START

40% ETHER, FAST IGNITION ENGINE START FORMULA

- 40% ether content, highest available in NZ
- More starting grunt
- Faster ignition which means less battery drain
- Starts petrol and diesel engines, two or four stroke
- Upper cylinder lubricant added

7845 / 500ml

CARBZ

THROTTLE BODY & CARB CLEANER

- Quickly and easily removes gum, sludge, varnish, paraffin, gasoline stains, grease and dirt build-up from engine intake systems without the need to remove parts
- Restores fuel efficiency and helps with preventative maintenance
- Fast drying, no residue

7825 / 500ml
450gm

“...whether it's the 700hp Supercharged Chevy race engine or the mint original interior, I don't look past the Chemz range of products to keep them clean and tidy while competing around the country in legal burnout competitions that cover us in fine rubber constantly...

AUTOMOTIVE

ICE FIGHTER

AUTOMOTIVE & EQUIPMENT DE-ICER

- Quick acting formula removes frost and ice from all types of glass and metal surfaces
- Releases frozen door locks and parts
- Smear and streak free results
- Actively prevents re-freezing
- Safe on rubber and paint

7803 / 250ml

LIMITED EDITION TWIN PACK

NO.8 AND OIL AND GREASE EATER - LIMITED RUNS

- The ultimate clean-and-protect combo for home, farm, workshop, and on-site.
- Oil & Grease Eater cuts through grime, oil, and dirt — biodegradable and solvent-free.
- No.8 Multilube lubricates, protects, and repels moisture — stops squeaks and corrosion.
- Clean it, then protect it — all in one handy pack.

7382 / twin pack

EZY SHINE

WET LOOK TYRE SHINE

- Provides an easy application, ultra-high gloss wet look finish for tyres, unpainted exterior plastic trim, bumpers and louvres
- Lasts for weeks and formulated to protect tyres without damaging paintwork or wheels
- Two convenient sizes for home and work

7876 / 600ml
7879 / 20L

MOTORCYCLE

MX3 CHAIN LUBE

Formulated for use on all high-speed motorcycle chains. Penetrates inner pins, rollers and bushings. After propellant evaporates, the residue thickens to a long lasting lubricant. Safe on O Rings.

7652 / 250ml
7655 / 500ml

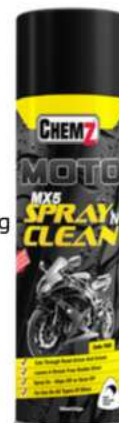

MX4 BIKE SHINE

Suitable for helmets, gloves, leathers, boots, mudguards, fairings, mufflers, instrument panels and all surfaces requiring coating and long lasting shine.

7675 / 500ml

MX5 SPRAY'n'CLEAN

Spray on, hose off. Cuts grease and grime, removing film from motorcycle tanks, fairings, guards, panniers, rims, cooling fans, exhausts, suspensions and brake units.

7665 / 500ml

ELECTRICAL CLEANERS

CONTACT CLEAN

PRECISION ELECTRICAL & ELECTRONIC CLEANER

- Gentle but effective cleaner, low toxicity
- Safe on paint, plastic and rubber
- Residue free and fast evaporation
- Great on sensitive components

7115 / 500ml

MPI C12

ELECTRO CLEAN

NON FLAMMABLE HEAVY DUTY ELECTRICAL EQUIPMENT CLEANER

- Removes grease and oil
- Evaporates quickly, repels water and moisture
- Residue free, a patented blend of heavy duty solvents
- Not for use on rubber or plastic

600gm

7125 / 400ml

MPI C12

D-OX

DISSOLVES CORROSION, CARBON & OXIDE DEPOSITS

- Dissolves deposits on multiplugs, contacts, PCB's and electrical fittings
- Removes carbon after flash over in control cabinets and multiboxes
- Oil based formulation with etching agents
- Residue can be removed with Contact Clean
- Safe on plastics

7174 / 400ml

MPI C12

RW CLEANER

LOW TOXICITY, POWERFUL INDUSTRIAL CLEANER

- Removes contamination in the engineering and electrical equipment fields
- Low toxicity, great for use in enclosed spaces
- Available in three convenient sizes

7155 / 500ml

7158 / 5L

7159 / 20L

MPI C12

IPA-ISOPROPYL ALCOHOL

SAFE CLEANER FOR ELECTRONICS

- Sanitises soft and hard surfaces and kills 99.9% of germs
- Effective on a range of bacteria, enveloped viruses, fungi, yeasts and pathogens
- Rapidly evaporates with a low odour.
- QCA free
- Excellent for use on hard to reach areas

7033 / 300ml

7038 / 5L

7039 / 20L

MPI C12

HEAVY DUTY CONTACT CLEANER

UNIVERSAL HEAVY DUTY CLEANER

- Removes flux and dissolves residue safely, non corrosive
- Repels water and moisture
- Fast evaporation, residue free
- Harmless to plastics and rubber, contains no CFC's or chlorinated solvents

7135 / 500ml

MPI C12

ELECTRICAL LUBRICANTS

PLASTI SEAL

TRANSPARENT MULTI-PURPOSE WATERPROOF COATING

- A shiny, flexible film that resists acid, salt, fungus, thermal stress, moisture and tough environmental conditions
- For electrical, electronic and PCB components
- Touch dries to allow easy soldering

7324 / 400ml

MPI C22

SILICONE 1000

VISCOUS INSULATING & LUBRICATING SPRAY

- High quality electrical grade silicone with a dielectric strength of 16kV/mm
- Effective for use in temperature situations from 50° to 200°C
- Repels water and buffers moisture

7314 / 400ml

MPI C22

CONVAS

HIGH PURITY, LOW VISCOSITY VASELINE LUBRICANT

- Lubricates HRC fuses, links, switching gear and switch disconnects
- Protects battery terminals from oxidation
- Low viscosity captures tiny fractures on battery surfaces, confining corrosive fumes

7354 / 400ml

MPI C12

CABLE GLIDE

EFFECTIVE & VERSATILE CABLE PULLING LUBRICANT

- High quality silicone-based lubricant for all horizontal and vertical pulls
- Superior friction reduction
- Compatible with all common cable types

7344 / 400ml

MPI C12

PENETRENE

LUBRICATES, PENETRATES & DRIVES OUT MOISTURE

- Can be used on all electrical and industrial equipment
- Forms an invisible film, protecting equipment and preventing corrosion
- Safe on plastics, rubber and paint

7304 / 400ml

7308 / 5L

7309 / 20L

MPI C12

MICRO LUBE

FIBRE OPTIC JETTING CABLE LUBRICANT

- Superior lubrication film with pourable low viscosity
- Coats evenly and clings to cables
- Compatible with all types of cable and ducts

7365 / 500ml

7369 / 10L

BLUE LUBE

NON-TOXIC CABLE PULLING LUBRICANT

- Water based, non-toxic and non-flammable
- For use on horizontal and vertical pulls
- Superior friction reduction
- Compatible with all common cable types

7377 / 1L

7379 / 20L

7370 / 1000L

MPI C12

SPRAY BOTTLE

APPLICATOR

- Tough, reusable container
- Quality construction and parts
- Can be used with a range of products
- Helps to reduce our carbon footprint
- Highly resistant to solvent contents

7999 / 500ml

FOOD GRADE

Ministry for Primary Industries
Manatū Ahu Matua

KEEPING UP WITH FOOD GRADE LABEL COMPLIANCE CAN BE CHALLENGING. CHEMZ IS HERE TO HELP

There are limited categories which allow chemical products to be used during the processing of food in New Zealand. The Ministry for Primary Industries (MPI) defines when, where and how these products can be used.

- **C12** and **C23** are approval codes which allows a product to be used in edible product areas
- **C15** is an approval code which allows a product to be used to lubricate moving parts on equipment
- **C26** is an approval code which allows a product to be used on food contact surfaces
- **C44** is an approval code which allows a product to be used as a sanitiser in food manufacturing
- **C101** is an approval code which allows a product to be used in edible areas during routine maintenance periods
- **MPI APPROVED** for use at Farm Dairies and in Dairy Processing.

CHEMZ HAS A HIGHLY EXPERIENCED RESEARCH & DEVELOPMENT TEAM WHO ENSURES ALL CHEMZ FOOD GRADE AEROSOLS HAVE THE APPROPRIATE MPI APPROVAL. CHEMZ KEEPS YOU AND YOUR CUSTOMERS SAFE

FG04 DRY FILM SILICONE

LUBRICATES AND PROTECTS FOOD HANDLING LINES

- A dry, non-stick lubricant that is an excellent release and parting agent
- Lubricates and protects
- Eliminates sticking, binding and squealing on rubber, plastic and metal parts
- Leaves a dry fogging film which resists dirt and dust build-up

7204 / 400ml
7209 / 20L

MPI C26

FG15 CONTAMINANT RELEASE SPRAY

QUALITY INERT CLEANER FOR FOOD INDUSTRY EQUIPMENT

- Formulated for the release of organic contaminants, dirt, grease, grime and oil from machinery and electrical equipment in the food industry
- Suitable for incidental food contact
- Two convenient sizes

7215 / 500ml

MPI C26

FG24 BELT GRIP

TACKY FORMULA DESIGNED TO SUPPORT TRANSMISSIONS

- Suitable for incidental food contact
- Adheres strongly to belts assisting transmission and drive
- Suitable for both indoor and outdoor belt applications regardless of humidity or temperature
- Keeps belts flexible and resistant to cracking, extending equipment life

7224 / 400ml

MPI C26

FOOD GRADE

FG44 LUBE 4 PENETRENE

MULTI USE LUBRICANT AND ANTI-CORROSIVE

- Lubricates, penetrates and stops corrosion on food processing equipment and machinery
- Low viscosity formula stops squeaking and squealing
- Penetrates effectively, loosening corroded components
- Leaves a thin non-drying colourless film, safe on most surfaces

7244 / 400ml

7248 / 5L

7249 / 20L

MPI C15

FG54 HI TEMP CHAINLUBE

HIGH TEMP CONVEYOR CHAIN SPRAY

- High performance chain spray developed to lubricate roller, drive and bi-plane conveyor chains subject to high temperatures and loads in food environments such as meat processing, bakeries, beverage and food factories
- Exceptional resistance to temperatures up to 240°C

7254 / 500ml

7258 / 5L

7259 / 20L

MPI C15

FG74 SILICONE LUBE

HIGH QUALITY FOOD GRADE APPROVED SILICONE

- Suitable for incidental food contact
- Non-toxic, non-staining, tasteless, odourless and without solvents
- Prevents sticking and binding on all food equipment and machinery, slideways and stainless steel chutes

7274 / 400ml

7278 / 5L

7279 / 20L

MPI C26

FG64 HI-LO GREASE

EXTREME PRESSURE FOOD GRADE LUBRICANT

- Suitable for a range of lubrication uses in the food industry
- Effective at extreme low and high temperatures -40°C to 180°C
- Can be used on freezers, chillers, ovens or sterilisers

7264 / 500ml

MPI C15

FG84 PTFE DRY LUBE

WHITE, ODOURLESS DRY FILM LUBRICANT

- Suitable for incidental food contact
- Contains a polytetrafluoroethylene (PTFE) based dry film lubricant and can be used wherever oil or silicone free lubrication is required
- Provides a lubricated medium with low frictional properties
- Unaffected by water, steam and most chemicals

7284 / 400ml

MPI C15

FG94 MEAT RAIL LUBE

HIGH PERFORMANCE FRICTION MODIFIER SPRAY

- Meat rail spray formulated as a friction modifier for conveyor rails and transport chains subject to high temperatures and loads
- Allows easy transfer of gambrel skids and trolleys
- Suitable for a wide range of temperatures up to 240°C, assisting with corrosion and rust prevention

7294 / 500ml

7298 / 5L

7299 / 20L

MPI C26

INDUSTRIAL

XTRA CUTTING OIL

GENERAL PURPOSE DRILLING & CUTTING LUBRICANT

- Excellent hang on when vertical work is required
- Lubricates and cools efficiently, reduces friction and wear
- Can be used on ferrous and non-ferrous metals
- Improves surface finish and extends tool life

7714 / 400ml
7718 / 5L

MPI C12

LABEL STRIP

REMOVES ADHESIVE LABELS QUICKLY & EASILY

- Penetrates labels and neutralises adhesive
- Can be used on glass, metal, wood and most plastics
- No damage to surfaces
- Residue easily removed
- Easy to use in the home, office or factory

7774 / 400ml

MPI C101-83

WASP

STOPS WELD SPATTER ON METAL SURFACES

- Unique anti-adherent properties
- For use in MIG and electrode welding
- Suitable for all metals in common use
- Economical and prolongs nozzle life
- Non-flammable

600gm
7735 / 500ml
7739 / 20L

MPI C12

CHAIN LUBE

HIGH PERFORMING ADHESIVE LUBRICANT

- Continuous lubrication for high performance chains and wire ropes
- Effective in hot, cold and salt water
- Great temperature range -30° to 180°C
- Reduces friction and wear

7744 / 400ml
7748 / 5L

MPI C12

LANO SHIELD

HEAVY DUTY NATURAL LANOLIN PROTECTION

- Natural lubricant derived from sheep's wool which provides lanolin protection against the effects of salts, alkalis and acids
- Gives long term corrosion and anti-seize protection
- Prevents thread seizure and assists with maintenance, even after many years

7755 / 500ml
7758 / 5L
7759 / 20L

MPI C12

HI-TAC

HEAVY DUTY MULTI PURPOSE TACKY LUBRICANT

- Great for use in outdoor environments resistant to steam and water
- Provides excellent anti-wear properties for vertical chains and wire ropes
- Solvents evaporate after a short period, leaving a highly adhesive long-term lubricant

7764 / 400ml

PENETRENE

LUBRICATES, PENETRATES & DRIVES OUT MOISTURE

- Can be used on all mechanical and industrial equipment
- Forms an invisible film, protecting equipment and preventing corrosion
- Safe on plastics, rubber and paint

7304 / 400ml
7308 / 5L
7309 / 20L

MPI C12

GRAB IT BELT GRIP

TACKY FORMULA DESIGNED TO SUPPORT TRANSMISSIONS

- Adheres strongly assisting transmission and drive
- Suitable for both indoor and outdoor belt applications regardless of humidity or temperature
- Keeps belts flexible and resistant to cracking, extending equipment life

7724 / 400ml

DRY LUBE PTFE

NON-TOXIC DRY FILM LUBRICANT

- Excellent anti-stick properties
- Wide temperature range -100° to 260°C
- Perfect for extreme environments where fluids can't be used
- Contains PTFE for superior lubrication
- Non-toxic and non-staining

7484 / 400ml

MPI C12

WHITE LITHIUM GREASE

HIGH PERFORMANCE COMPLEX GREASE

- Moisture and heat resistant lubricant which won't drip or run
- Has a high drop point of 280°C and a high polymer treatment level
- A versatile, protective grease for use on metal and non-metal connections

7424 / 400ml

NICKEL ANTI-SEIZE

EXTREME TEMPERATURE ANTI-SEIZE PROTECTION

- Designed for stainless steel fasteners
- Formulated for use in extreme temperature conditions up to 1200°C to keep threaded components moving

7444 / 400ml

MPI C12

7444 / 400ml
7445 / 500gm TUB

COPPER ANTI-SEIZE

HIGH TEMPERATURE ANTI-SEIZE PROTECTION

- Provides high temperature protection up to 900°C, against burning-in, seizing, self-welding and galvanic fusion
- Separates and seals out corrosive elements
- Helps move studs, bolts, flanges, screws and fittings

7474 / 400ml

7475 / 500gm TUB

GRAPHITE SPL

TRACK & RAIL SWITCH PLATE LUBRICANT

- Creates a quick drying film for long-lasting lubrication
- Anti-wear graphite compounds provide excellent long-term protection
- Rain and corrosion resistant with extreme pressure and anti-wear properties
- Great temperature range -30°C to 140°C

7455 / 500ml

STAINLESS STEEL CLEANER

WHITE NON-EVAPORATING FOAM - ONE WIPE RESULTS

- Gives a streak free clean and a polished surface with no greasy remnants such as fingerprints
- Effective on different grades of stainless steel surfaces including bead blasted finishes
- Perfect for domestic as well as industrial use

7165 / 500ml

MPI C22

DEAD AZZ - INSECTICIDE

ODOURLESS INDUSTRIAL FLY AND INSECT KILLER

- Odourless fly and insect killer which provides a quick knockdown and high kill rate.
- Industrial strength
- Suitable for transitional facilities and devanning containers
- Can kill mosquitoes, flies, cockroaches, silverfish, fleas and more!

9125 / 500ml

MPI APPROVED TYPE A

GLASS & SCREEN CLEANER

ANTI-STATIC & ANTI-FOG FOAM CLEANER

- Streak-free glass cleaner which removes dirt and grease instantly
- Will not stain, scratch or abrade
- Can be used on glass, plastic, ceramic and metal

7195 / 500ml

MPI C35

MARKER SPRAYS

RIGHT WAY UP & UP SIDE DOWN

TWO CONVENIENT DELIVERY OPTIONS FOR USE IN FORESTRY, ORCHARDS, ROADS, CONSTRUCTION, SILVICULTURE & HORTICULTURE

- Marks quickly and accurately with great visibility
- Human and environment friendly, no Toluene or MEK
- High opacity, strong and bright colours
- Spray through caps reduce finger contamination and joint strain
- Use with a Chemz Spray Wand to minimise back stress
- Colour options comply with WorkSafe NZ Colour Guide

BULK

BIGGER CAN BE BETTER

BIGGER BUSINESS, BIGGER MACHINERY AND BIGGER USE MEANS BULK

Buying in bulk can sometimes be the best option. By purchasing larger volume of product at one time, you will be:

- Reducing administrative workload and time
- Driving cost savings and convenience
- Generating flexibility and variety of product
- Ensuring you have product on demand and on site
- Reduce our environmental impact by saving on packaging and fuel

Let Chemz be your bulk product partner and take advantage of some significant benefits.

MINIMAL MANUFACTURING MILES & INNOVATING LOCALLY

MANUFACTURING MILES ARE A SYMBOLIC MEASURE OF THE DISTANCE A PRODUCT IS TRANSPORTED FROM PRODUCTION TO FINAL USE. THE MORE MILES TRAVELLED, THE MORE GREENHOUSE GASES RELEASED INTO THE GLOBAL ENVIRONMENT.

Imported aerosol cans travel incredible distances to be sold in New Zealand. A US can will travel at least 13,000km, a can made in Europe will travel 17,000km, a can from China will travel over 9,000km and even a can from Australia needs to travel a minimum of 2,500km to your place of work.

By purchasing a CHEMZ aerosol can manufactured in New Zealand, you can reduce those distances by up to 90%. The positive impact of minimal manufacturing miles on our carbon footprint is huge and CHEMZ is proud to be supporting New Zealand's commitment to be carbon neutral by 2050.

CHEMZ HAS BEEN INNOVATING LOCALLY FOR OVER 25 YEARS. IT SUPPORTS REGIONAL ECONOMIC GROWTH WHICH ANCHORS SUPPLY CHAINS, CREATES JOBS & INVESTS PROFITS BACK INTO THE LOCAL ECONOMY RATHER THAN REMOVING PROFIT OVERSEAS.

CHEMZ founder John Berry is a firm supporter of Kiwi owned and made business principles. He champions innovation by anticipating local business need and is not influenced or pressured by overseas owner profit demands. As a 'first to market' company, CHEMZ continues to refine formulations for uniquely local circumstances and needs, resulting in an adapted range of NEXTGEN products which are better for use, the user and the environment.

RAPID BRAKE CLEANER

NEXTGEN

- First non-chlorinated brake cleaner released in New Zealand
- Alcohol based formula
- Quickly removes brake fluids, grease and oil
- Fast drying

7856 / 600ml

7857 / 750ml

7859 / 20L

7850 / 200L

MPI C12

OIL & GREASE EATER

NEXTGEN

- First biodegradable water based cleaner and degreaser released in New Zealand, petroleum solvent free
- Formulated to degrease engines, machinery, equipment and surfaces

7885 / 500ml

7888 / 5L

7889 / 20L

7880 / 200L

7881 / 1000L

“

"...It's been my goal for over 25 years to manufacture original and market driven products for Kiwi companies and Chemz has succeeded.

We employ locally, we invest locally and we innovate locally..."

John Berry
Founder, Chemz Ltd

SANITISERS

HAND SANITISER

HIGHLY EFFECTIVE 70% ALCOHOL BASED MEDICAL GRADE SANITISER

- Exceeds current Ministry of Health alcohol content guideline of 60%
- Contains Benzalkonium Chloride (BAC) disinfectant to give additional sanitising power
- Kills 99.9% of germs and is effective against a range of bacteria, enveloped viruses, fungi and yeasts
- Rapidly evaporates without leaving an odour
- Emollients ensure hands are left smooth and moisturised
- Two handy portable sizes

9232 / 150ml

9234 / 400ml

SURFACE+EQUIPMENT SANITISER

HIGHLY EVAPORATIVE NO RINSE ETHANOL BASED SANITISER FOR USE WHEREVER FOOD IS HANDLED OR PREPARED

- MPI44 approval allows qualified use in food processing areas
- Sanitises soft and hard surfaces
- Kills 99.9% of germs and is effective against a range of bacteria, enveloped viruses, fungi and yeasts
- Odourless and evaporates rapidly
- QAC free, excellent for use on hard to reach areas

7185 / 500ml

7188 / 5L

MPI C44

IPA SURFACE+EQUIPMENT SANITISER

THE ISOPROPYL ALCOHOL (IPA) ALTERNATIVE TO THE ETHANOL SURFACE + EQUIPMENT SANITISER

- Contains no chlorinated solvents, kills 99.9% of germs and is effective against a wide range of pathogens
- A pure, mild cleaner for all electronic, electrical, mechanical and optical equipment
- Clear, colourless liquid which has excellent compatibility with plastic and other materials
- Effectively removes fat, oil, dust, grease and grime
- Evaporates quickly without residue and dries spot free

7033 / 300ml

7038 / 5L

MPI C12

ZINC

99% PURE ZINC COATING

- Contains 99% pure zinc for corrosion and rust defence
- Electrochemically bonds to bare metal which provides unique, top of the range active galvanic protection
- Fast drying, long lasting and durable

7533 / 300ml
385gm

MPI C23

ZINC SILVER

ZINC RICH PROTECTION COATING

- Coloured film contains pure zinc complexes
- Electrochemically bonds to bare metal
- Provides resistance to corrosive environments
- Fast drying to a deep semi-gloss finish

7544 / 400ml

MPI C23

ZINC BLACK

ZINC RICH PROTECTION COATING

- Coloured film contains pure zinc complexes
- Electrochemically bonds to bare metal
- Provides resistance to corrosive environments
- Fast drying to a deep semi-gloss finish

7554 / 400ml

MPI C23

ZINC MATT BLACK

ZINC RICH PROTECTION COATING

- Coloured film contains pure zinc complexes
- Electrochemically bonds to bare metal
- Provides resistance to corrosive environments
- Fast drying to a deep matt finish

7504 / 400ml

MPI C23

ZINC WHITE

ZINC RICH PROTECTION COATING

- Coloured film contains pure zinc complexes
- Electrochemically bonds to bare metal
- Provides resistance to corrosive environments
- Fast drying to a deep semi-gloss finish

7524 / 400ml

“

...I've been a chemist for over 40 years, working in product development and technical services in New Zealand and overseas. I specialise in formulation development, from concept to production trials to safety and shelf life. My skills and experience have culminated in over 20 years with Chemz. I'm proud to have developed a comprehensive, scientifically robust, top quality, innovative aerosol range using the best formulations with superior ingredients for Chemz and their customers....

Bill Jennings
Lead Chemist

”

ABOUT CHEMZ

2000

CHEMZ incorporated by John Berry in Waipukurau, Southern Hawkes Bay in response to a call from industry for quality, locally made automotive and industrial products.

2002

A slight name change to CHEMZ, and seven electrical products were launched, including "Blue Lube" in a distinctive first to market squeeze bottle

2004

CHEMZ range extended, with six more industrial products added, including Label Strip, the first NZ made product to neutralise adhesives.

2007

CHEMZ moved into custom office and warehouse premises in Havelock North. Another seven automotive products were added to the growing range.

2009

Sponsorships and community engagement partnerships developed, with CHEMZ sponsoring the Kiwi "Hogan, Martin & Rea" team as they set a 193mph record at Bonneville Utah in a 1934 XF class Flathead Ford.

2011

The new product innovations keep coming. CHEMZ launches a motorcycle specific product range MX MOTO, tailored for Kiwi conditions.

2013

The first of the NextGen range is researched, produced and launched. Grease Eater is the first bio-degradable degreaser made for the NZ market.

OUR STORY

Chemz founder John Berry began his career in the petroleum industry in 1964, working for a US geophysical company on seismic survey boats in the North Sea. He continued this work through the Mediterranean, the Red Sea and off the coast of North Africa, finally finishing up off the south western coast of Australia. After a number of years on water, John commenced working with Shell Oil in western Victoria.

In the 1970's John, Suzanne and the family relocated to New Zealand. John had been approached by a large American corporation to champion the start-up of the New Zealand branch of an aerosol company. For the next two decades, John took this company from complete obscurity to a Kiwi household name.

By the time the 1990's rolled around, John was ready for a quieter life. He and Suzanne relocated to Hawke's Bay where they purchased a sheep and cattle farm. They were happy tending their stock, however the Kiwi aerosol market had other ideas. In less than a decade, John was approached by several distribution companies who were looking for an alternative, quality aerosol range and wanted to move away from the trading restrictions placed on them by the only aerosol company in the New Zealand market at that time.

In 2000, Chemix was born. John entered the market with a New Zealand first - a quality range of 3in1 oil in an aerosol can. The market responded with gusto. Chemix grew into Chemz, picked up pace and launched a suite of 'first to market' innovative products specifically designed for Kiwi businesses.

The rest is history...

OUR QUALITY

Chemz values and stands by its reputation for technical excellence. Every can that comes off the production line is fully quality controlled and every formulation is tested and re-tested to ensure it will do the job it was designed to do.

Every step of production is monitored to ensure that a Chemz product performs and provides value for money. This quality assurance means you can confidently rely on a Chemz product to perform to standard every time. Chemz works with industrial chemists who are leaders in their field and who listen to the market, developing formulations to meet the specific requirements of New Zealand industry.

With a focus on quality outcomes, Chemz never compromises on production or material cost. Instead, Chemz concentrates on strong Kiwi supply relationships where quality is valued as a moderator in a market dominated by overseas multinational companies.

OUR INNOVATION

Chemz founder John Berry had only two stipulations when he started Chemz. The first was to provide the market with a quality product. The second was to continually innovate and work with industry to provide products that were actually needed.

Over the last two decades, Chemz has developed a reputation as the company that listens to what the market needs, and responds. Much of the current Chemz product range has been developed in consultation with New Zealand industry leaders and then launched to a wider market. For example, RW Cleaner was the result of a collaboration between Chemz and a key client in the transport sector. The collaboration resulted in the development of a bespoke product which met the client needs and could then be offered to the wider market.

By developing strong client relationships and engaging in meaningful industry relevant discussions, John and the Chemz team can identify opportunities and move quickly. This has resulted in over 100 innovative, market specific products - something for every Kiwi company.

ABOUT CHEMZ

OUR SUSTAINABILITY

Chemz has long been committed to environmentally conscious operations as a business model. When John was farming in Central Hawke's Bay, he committed to upgrading his farming operation to a non-toxic model and succeeded within three years. He took the same focus on sustainability into Chemz.

Chemz has been developing the NextGen range of products, a collection which create less negative impact on people and the environment. Chemz also makes conscious decisions to use sustainable manufacturing practices wherever possible, including raw product sourcing. It actively participates in comprehensive recycling programmes and has implemented continual energy and water consumption reduction strategies in its production.

The unique benefit of using Chemz products is the contribution to decreasing manufacturing miles. The closer to home a product is made, sold and used, the less negative impact on the world's carbon footprint and greenhouse gases. By supporting a local industry like Chemz, Kiwis can significantly reduce manufacturing miles and actively participate in New Zealand's commitment to be carbon neutral by 2050.

OUR COMMITMENT TO YOU

The twin principles of quality and innovation that Chemz stands by are designed to support you, the customer. Chemz is committed to providing quality products and service to the New Zealand market.

- o Rather than expand internationally, Chemz chooses to remain local and anchor its expertise and time here
- o Rather than outsource its sales and customer service to an overseas call centre, Chemz offers exceptional technical sales expertise face to face, and great customer service on the phone
- o Rather than remove its profit offshore to a multinational conglomerate, Chemz reinvests in New Zealand

Chemz is committed to you, the customer.

So committed in fact, its founder John Berry is happy to discuss Chemz with you. Just give him a call on 06-877 9690. How many aerosol company founders, CEO's or managing directors would do that?

OUR FUTURE

So what's next for Chemz and the specialist aerosol market?

Chemz is continually innovating with product ranges, distribution channels, engagement opportunities, sponsorships and different ways to support Kiwi industry. Part of our commitment to you is to continue this innovation strategy so you have products in market that meet your evolving needs.

Chemz has an experienced Research and Development team who identify new opportunities and collaborate with industry partners to bring products to you. The R & D team are also working to enhance and re-launch current products so they are more environmentally friendly, while still delivering the quality product Chemz is known for.

By partnering with New Zealand industry, Chemz will continue to lead the way with quality, innovation, information and commitment.

That's what matters.

2014

Chefs kiss for FOOD GRADE! Nine products launched, all meeting MPI, AssureQuality and NSF standards for food manufacturers and processors.

2017

CHEMZ is on the move again, another upgrade. This time into a multi-million dollar, purpose built office, manufacturing and warehousing complex at Whakatu, Hawke's Bay.

2019

CHEMZ strives for more sustainable manufacturing with the use of 'p' caps on leg marker sprays to minimise plastic waste in NZ forests and agriculture.

2020

CHEMZ was first to market with a COVID busting hand and surface sanitiser made locally, avoiding large supply chain delays for Kiwis.

2023

Jumbo Rapid Brake Cleaner 750ml is launched, the first to market in response to customer request. Market interest was so strong, the first production run was sold out even before it came off the line!

2024

The CHEMZ national sales team consolidates an outstanding year, providing expertise and training for customers and representing at national expos.

2025

The CHEMZ team are beyond excited to be celebrating 25 years of Trusted Aerosol Performance - NZ Made and proudly so!
